Hazardous Weather

Hazardous Weather

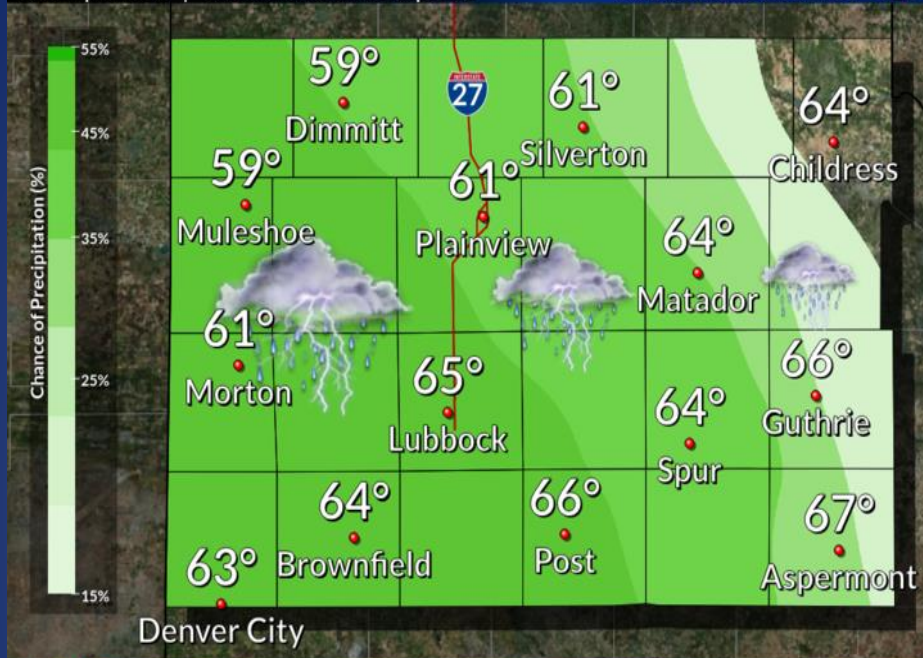

Tonight: Storms Spread East

Weather Forecast Office
Lubbock, TX

Low temperatures | Severe storms are not expected

Issued Jun 03, 2018 4:47 AM CDT

f t NWSLubbock

weather.gov/lub

Numerous showers and storms (non-severe) will spread east across the region overnight. Soaking rains are likely, especially west of I-27 and Highway 87.

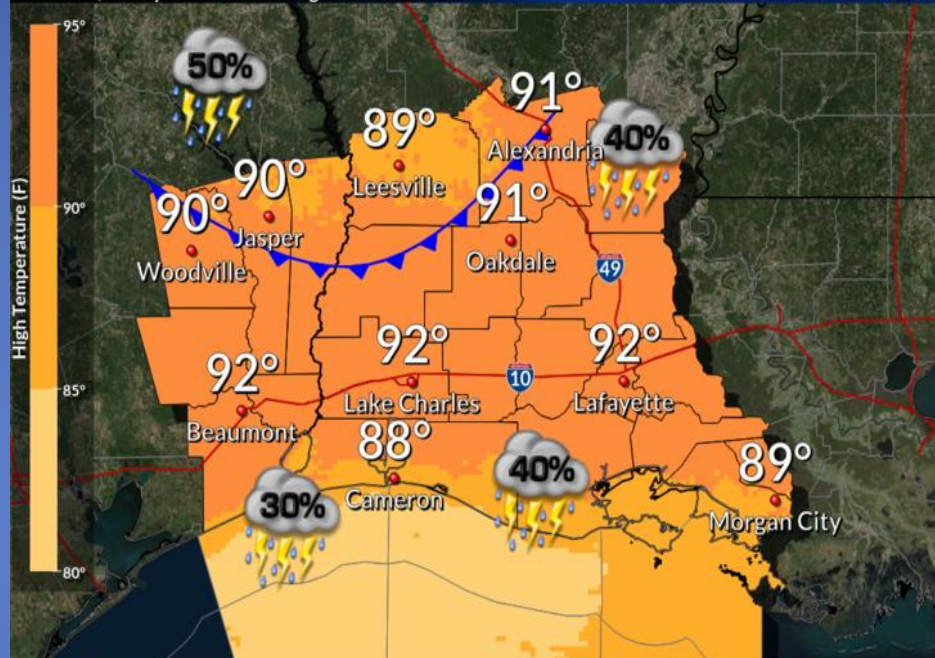

Today

Weather Forecast Office
Lake Charles, LA

Scattered, mainly P.M. T-storms. Highs in the low 90s.

Issued Jun 03, 2018 6:50 AM CDT

f t NWSLakeCharles

weather.gov/lch

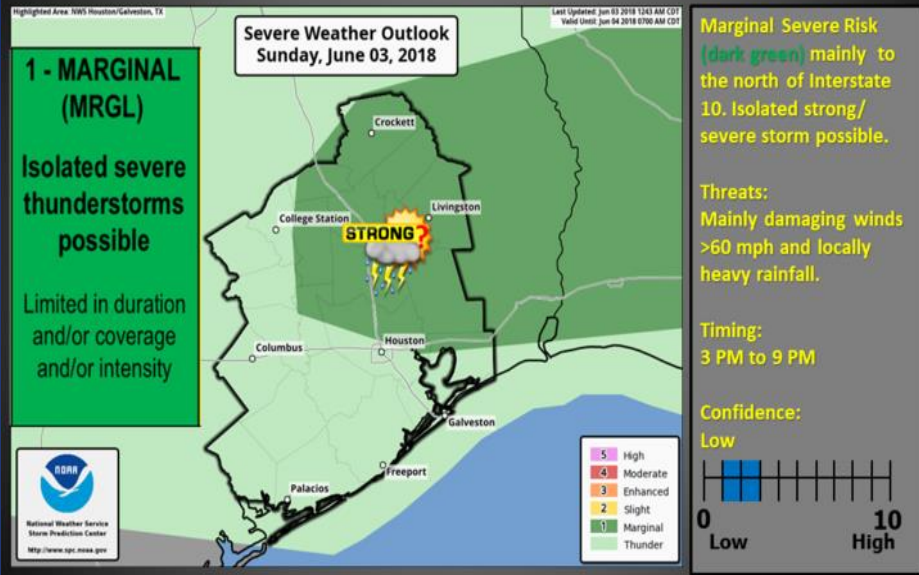

Scattered thunderstorms possible area wide as a cold front pushes into the area. Temperatures will be around 90s with West to Northwest winds 5-10 mph.

Hazardous Weather

Thunderstorms on Sunday

Marginal Risk of severe storms this afternoon and on into this evening

Weather Forecast Office
Houston/Galveston, TX
Issued June 3, 2018 4:06 AM CT

f t v NWSHouston

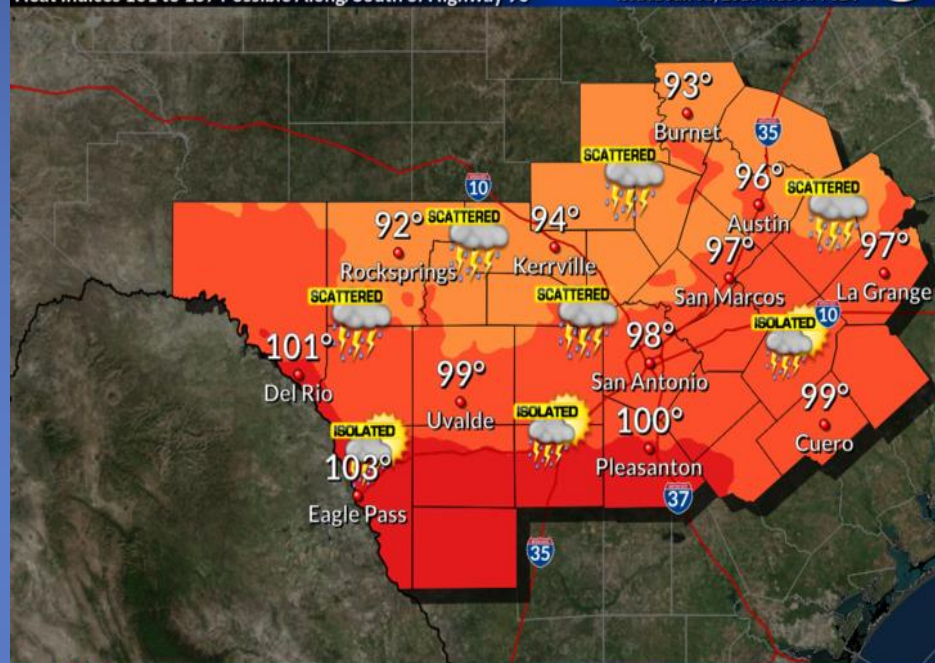

weather.gov/hgx

Shower and thunderstorm development is possible across parts of Southeast Texas today, and there is a marginal risk that some of the thunderstorms could become severe.

Scattered Storms Possible Today!

Heat Indices 101 to 107 Possible Along/South of Highway 90

Weather Forecast Office
Austin/San Antonio, TX
Issued Jun 03, 2018 4:16 AM CDT

f t v NWSSanAntonio

weather.gov/ewx

A weakening cold front will stall over South Central Texas today and bring a chance of showers and thunderstorms to many areas. A few storms could produce strong downdraft winds over 50 mph and some small hail. Rain chances are best north of a Del Rio to San Marcos to Giddings line. Areas along and south of Highway 90 should see only an isolated storm or two with afternoon heat indices climbing back up into the 101 to 107 degree range. The clouds, spotty rains and gusty outflow winds should help keep max temperatures in the 90s over most areas north of Highway 90.

Hazardous Weather

Today and Tonight

Cold Front Brings Short-Term Relief

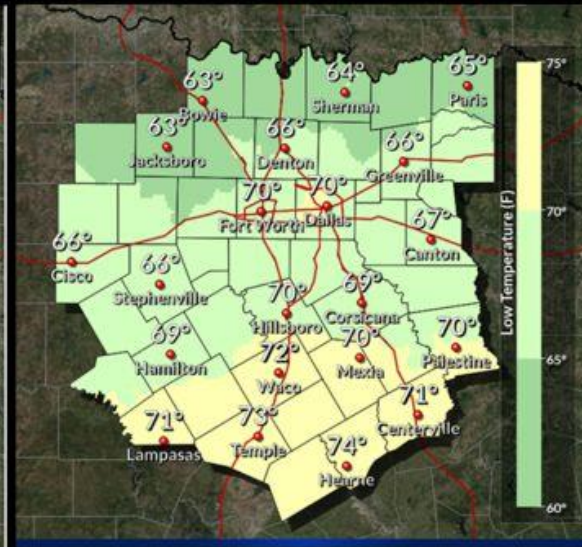

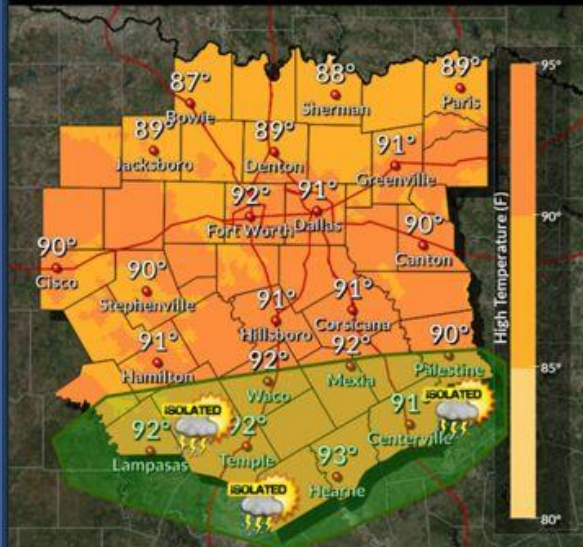

Weather Forecast Office
Fort Worth, TX

Issued June 3, 2018 5:00 AM CT

Today: Highs in the upper 80s and lower 90s.
A slight chance of storms across the south.

Tonight: Lows in the mid 60s north to
lower and mid 70s south.

NWSFortWorth

weather.gov/fortworth

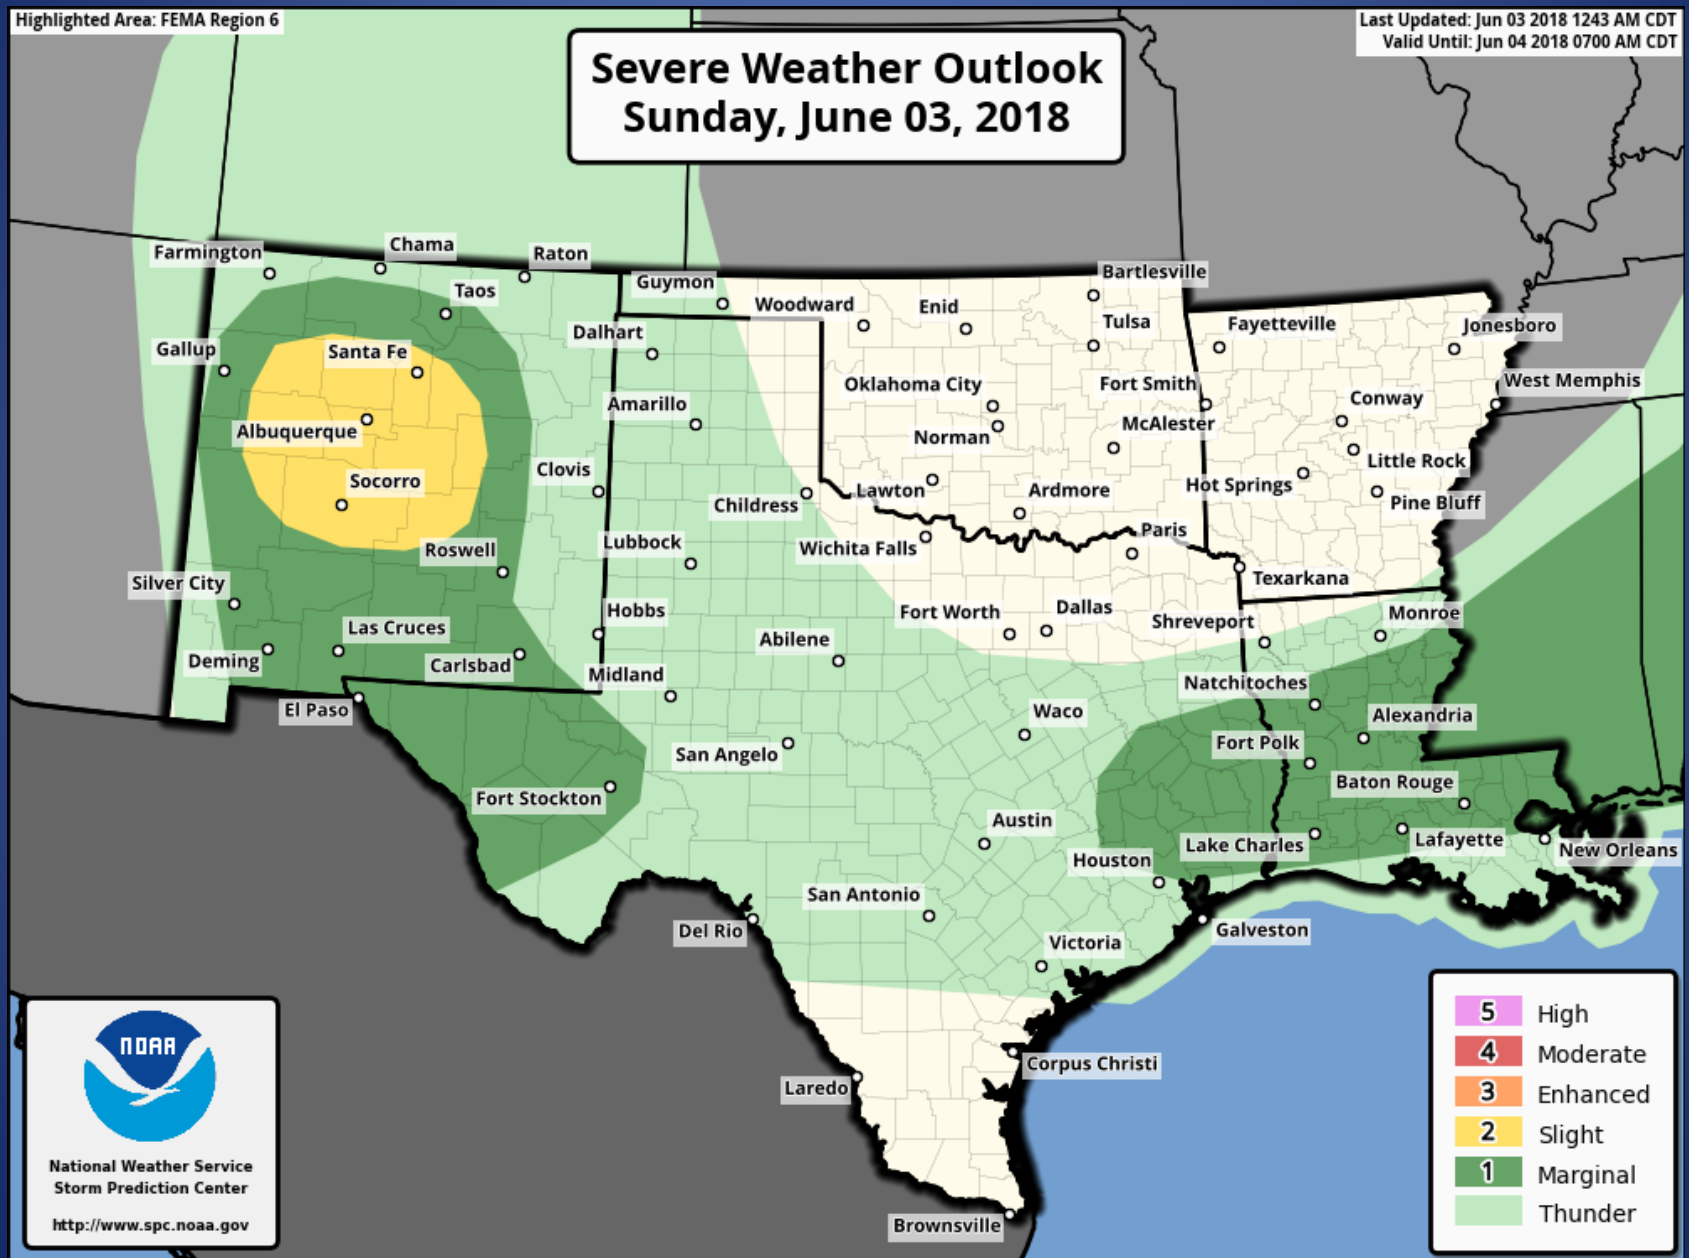

A short-term break from the hot and humid weather is expected through tonight behind last night's late-season cold front. Highs in the upper 80s and lower 90s today will be followed by lows from the mid 60s to lower and mid 70s tonight. There is still a slight chance of thunderstorms today across the southern third of the region.
